

Cambridge Pavingstones Pattern Ideas

Cambridge Blends are combinations of two or three select Cambridge solid colors mixed in unequal amounts for an appearance that is truly unique to each pavingstone, and as a result, every installation. Since this is a random process, blends are different in every cube of Cambridge Pavingstones and one color may predominate the other.

Basketweave Pattern:

The KingsCourt Collection 4 x 8 Holland (Shown) Chestnut/Salmon

ArmorTec Shell

Final selections must be made from samples obtained from an Authorized Cambridge Distributor or professional pavingstones and wallstones contractor. When installing pavingstones and/or wallstones, best color dispersion of solid colors and blends can only be achieved by removing units by the band, from top to bottom, using multiple cubes.
